

Producer Advisory Board

Improving Communication Across The Board!

Producer Advisory Board

An advisory board is a body that provides non-binding strategic advice to the management of an organization. The informal nature of an advisory board gives greater flexibility in structure and management compared to the board of directors.

These meetings will provide internal teams with more insight and a better understanding of what topics, questions and concerns are being raised externally.

This advisory board will consist of internal and external OneShare Health team members with one common goal; *to make informative decisions with our focus on the Member.*

- ❖ Improve Communication
- ❖ Program and Process Feedback
- ❖ Increase External Morale

What's In It For You?
